

# Surface Finishing

Custom solutions for ceramics, metal and glass

# SCHWEIZER – your competent partner for surface finishing solutions

## Individuality, flexibility and quality

Drawing on many years of experience, superior expertise and the dedicated commitment of our employees, SCHWEIZER offers custom solutions and has succeeded in establishing itself as a specialist in surface finishing with a large base of satisfied customers.

## Expertise and precision since 1840

Founded in 1840, A. SCHWEIZER GmbH is one of the oldest owner-managed companies in the German optics sector. The increasing interest shown by a wide variety of industrial companies in the knowledge gained in high-precision surface finishing of lenses and other components led to the founding of the subsidiary SCHWEIZER OFB GmbH. Today, we offer our customers myriad solutions for the surface finishing of hard materials and metals.

## Qualified and certified

We at SCHWEIZER are committed to meeting the quality requirements of our customers. From quotation to delivery of the finished components, our quality management assures compliance with the defined specifications along all stages of the production process. SCHWEIZER has been certified according to DIN ISO 9001 consistently since 2003.

# Reliable quality and highest quality standards

## Services and references

Discover our wide variety of surface finishing solutions for hard materials (ceramics, glass) and metal:

- Lapping
- Grinding
