 **SCHWEIZER**

TechMag 240 HD flex

Compact and mobile electronic inspection system. With unique color-boost contrast for even more contrast and brilliant colors – in HD quality. The flexible camera can be moved over three axes and offers comprehensive test object viewing. Plenty of space under the camera for universal uses. Integrated handle makes it easy to carry the device where it is needed.

- High-definition camera with autofocus
- 1.7x to 128x magnification
- Object viewing via 330° camera rotation (close-up, intermediate and distance) for professional inspections
- Settings can be saved for magnification, color setting and distance for each view
- Various display features such as freeze frame, shaded cells, and orientation line
- 41 cm clearance under the camera
- Wired control unit with large, color-contrasting function keys for intuitive handling
- On/off autofocus
- Find function
- Individually adjustable monitor tilt facilitates an ergonomic head position
- Flexible camera arm folds away behind the monitor for quick transportation
- 33 display modes, including true color, high-contrast colors (color-boost contrast), black and white, white on black, yellow on blue, yellow on black
- Incl. connectivity package: cable set for connecting the TechMag device to a PC or laptop
- Optional: separate XY table, item no. 999022 (size W x H x D: approx. 43 x 4.5 x 37 cm), fully or partially lockable;
